

26th Nordic-Baltic Congress of Cardiology 2017

Congress Speaker, 2017

Prof. JELENA CELUTKIENE

Cardiologist, Professor
Vilnius University, Faculty of Medicine, Clinic of Heart
and Vascular Medicine

Education

1985-1991 Pre-medicine and Medicine studies, Faculty of Medicine, Vilnius University
1991-1993 Residentsip in Internal Medicine, Vilnius University
1993-1995 Residentsip in Cardiology, Vilnius University
2003 PhD degree, "Indices of Myocardial Ischemia Derived from Pulsed-Wave Doppler Myocardial Imaging during Dobutamine Stress Echocardiography", Vilnius University

Research project experience

2010 - 2011 National research program "Chronic non-infectious diseases", „Ultrasound evaluation of myocardial deformation for the prognosis of significant coronary stenoses“, project leader.

2012 – 2013 Research project „Inflammatory cardiomyopathies: molecular markers for etiopathogenetic treatment“ (Nr. MIP-12193), co-investigator.

2013 – Research project „Value of new arterial markers for prediction of the development of left ventricular diastolic dysfunction and future cardiovascular events“ (contract Nr. VP1-3.1-ŠMM-07-K-03-041), senior investigator.

2015 – Research project "Diagnostic and prognostic value of biomarkers for patients hospitalized due to acute heart failure: prospective observational multicentre cohort study" (contract Nr. MIP-049/2015), project leader.

2016 - Research project "User driven innovation: Symptom monitoring after hospitalisation in patients with advanced heart failure: a NordicBaltic study"(Project No.: 76015), leader of national group.

Clinical and hospital appointments

1992-1995 Cardiologist, Emergency Department, Vilnius University Hospital Santariskiu Klinikos
1995-1996 Cardiologist, Coronary Intensive Care Unit, Vilnius University Hospital Santariskiu Klinikos
1996 - Cardiologist, Laboratory of echo stress tests, Vilnius University Hospital Santariskiu Klinikos

26th Nordic-Baltic Congress of Cardiology 2017

1999 - Cardiologist, Out-patient Consulting Department of Cardiology, Vilnius University Hospital Santariskiu Klinikos

2004 - Heart Failure Out-patient Consulting Department, Vilnius University Hospital Santariskiu Klinikos

2006 - Head of Laboratory of echo stress tests

2006 - Research Fellow, Vilnius University, Faculty of Medicine, Clinic of Heart and Vascular Medicine

2012 – Senior Research Fellow, Vilnius University, Faculty of Medicine, Clinic of Heart and Vascular Medicine

2015 – Associate Professor, Vilnius University, Faculty of Medicine, Clinic of Heart and Vascular Medicine

2016 - Professor, Vilnius University, Faculty of Medicine, Clinic of Heart and Vascular Medicine

Society membership

1995 Lithuanian Society of Cardiology, Lithuanian Heart Association

2000 European Society of Cardiology

2001 Secretary of Vilnius Department of Lithuanian Society of Cardiology

2004 Heart Failure Association of the ESC

2007 European Association of Echocardiography

2011 Head of Heart Failure working group of Lithuanian Society of Cardiology

2014

2016 Fellow of the European Society of Cardiology

Board member of the Heart Failure Association of the ESC

Clinical trial experience

2006 – 2009 investigator in EVEREST, ASCEND, SHIFT trials

2007 - 2012 principal investigator in RED-HF trial

2010 - 2013 investigator in SIGNIFY trial

2013 - investigator in FOURIER trial

2013 - 2015 principal investigator in COSMIC-HF, ARTS-HF studijose

2013 - principal investigator in “Effectiveness of myocardial shockwave therapy for stable angina patients“ multicenter trial

2013 - ISCHEMIA trial, study coordinator / investigator

2014 – national coordinator in QUALIFY registry

2015 - principal investigator in “Diagnostic and prognostic value of biomarkers in acute heart failure: prospective observational cohort study”
